18V Brushless Mixing Drill

BRUSHLESS

FASTER, STRONGER, SMARTER

Our 18V Brushless range is for those who lead the pack seeking industrial quality without compromise. LXT Brushless tools put you ahead of the game with market leading innovation, maximum power and the ultimate in endurance that 18V has to offer

Product Objectives

- Designed to suit the needs of tilers, painters, plasterers, renderers and trades requiring a cordless high torque mixing drill

- Develop a cordless mixing drill ideal for a wide range of applications, that is powerful lightweight and highly durable

Product Overview

Switch cover

Protection shield

Soft start

M14 / M12 Shaft holder

Mechanical 2 speed control

Lock on switch

Variable speed control

Enclosed battery

XPT
EXTREME PROTECTION TECHNOLOGY

Product Specification Sheet

Max. blade diameter	165mm
Spindle thread	M14 / M12
No load speed	High: 0-1,300rpm Low: 0-300rpm
Overall length	320mm
Skin weight	2.2kg
Weight (with battery)	2.8kg
Voltage	18V

- **Switch cover –** protects the switch from dust or moisture ingress increasing the durability of the switch for prolonged use
- **Protection shield –** protects splashed material from adhering to the machine body, guard can be removed and cleaned separately
- **Soft start –** suppresses start up reaction for smooth start ups preventing material from splashing out
- **M14 / M12 shaft holder –** compatible with a range of popular mixing paddles
- **Mechanical 2 speed control –** optimum rotation speed can be selected via the 2 stage selector on the motor housing
- **Lock on switch –** trigger can be locked in the on position allowing the user to mix material comfortably over extended periods of time
- **Variable speed control –** additional to the 2 stage speed selector rotating speed can be controlled via the trigger switch proving users maximum control over mixing speeds
- **Enclosed battery –** prevents splashed material from entering or adhering to the battery for increased durability and protection
- **eXtreme Protection Technology –** increases the tools protection against dust and moisture protecting key internal components

Advantages

Control

Mechanical 2 speed control
Allowing user to optimise rotation speed

Durability

Designed to be highly durable with key components protected from damage

Performance

18V Brushless motor provides high torque and longer runtimes

Ergonomics

Lightweight design weights only 2.8kg with 6.0Ah battery

Accessories

Standard Accessories

	140G50-6	Side grip
	323962-8	M12 Shaft holder
	326649-1	M14 Shaft holder
	458814-5	Front cover
	781006-4	Wrench 13
	781010-3	Wrench 19
	831253-8	Tote Bag

Optional Accessories

	P-22012	Size: 100 x 590mm M14 Recommended weight: 0-30kg Parallel mixing paddle Ideal for paint and plaster
	P-22056	Size: 120 x 590mm M14 Recommended weight: 15-25kg Negative Action (Top down) Ideal for ideal for thin-bodied materials such as paints, materials containing fibers, and gypsum plaster.
	P-22028	Size: 100 x 590mm M14 Recommended weight: 10-15kg Positive Action (Bottom up) Ideal for powdery and dry mixtures such as mortar, plaster, grout, cement
	P-22040	Size: 140 x 590mm M14 Recommended weight: 15-30kg Positive Action (Bottom up) Ideal for powdery and dry mixtures such as mortar, plaster, grout, cement
