

Makita[®]

Pneumatic 23Ga Pin Nailer

AF353

Product Objectives

- Designed to suit the needs of finish carpenters and skirting board installers that require an ultra fine finish
- Develop a pneumatic 23ga pin nailer that is compact and lightweight that produces an almost invisible finish

Product Overview

Ergonomic design

Protective bumpers

Slim nose design

Air duster

Remaining nail window

Anti dry fire

Product Specification Sheet

Fastener range	15-35mm
Operating air pressure	65-100PSI
Magazine capacity	130pcs
Fastener type	23Ga
Overall length	208mm
Net weight	0.9kg

- **Ergonomic design** – designed with a rubber grip and anti slip ribbing providing better comfort and control
- **Protective bumpers** – protect the work piece and body from scratches or damage. Rubber bumpers on the side of the tool allow the nailer to be placed down with damaging the surface
- **Slim nose design** – allows quick and easy access to fastening point, providing an accurate indication of where the nail will be fired
- **Air duster** – by pressing the push button, air from the compressor can be bypassed into the air duster nozzle to produce a powerful air blast for sweeping up the jobsite
- **Remaining nail window** – allows the user to quickly view remaining nail in the magazine
- **Anti dry fire** – prevents the workpiece from damage by preventing the driver from striking the material if no nails are present

Advantages

Convenience

23Ga pin nails create minimal nail holes for a fast and professional finish

Durability

Aluminium body, magazine and cylinder for added strength

Control

Air duster to sweep up the jobsite floor when the job is finished

Ergonomics

Lightweight design, soft grip and slim profile for easy operation
