

Makita[®]

Pneumatic 32-65mm Construction Coil Nailer

AN613

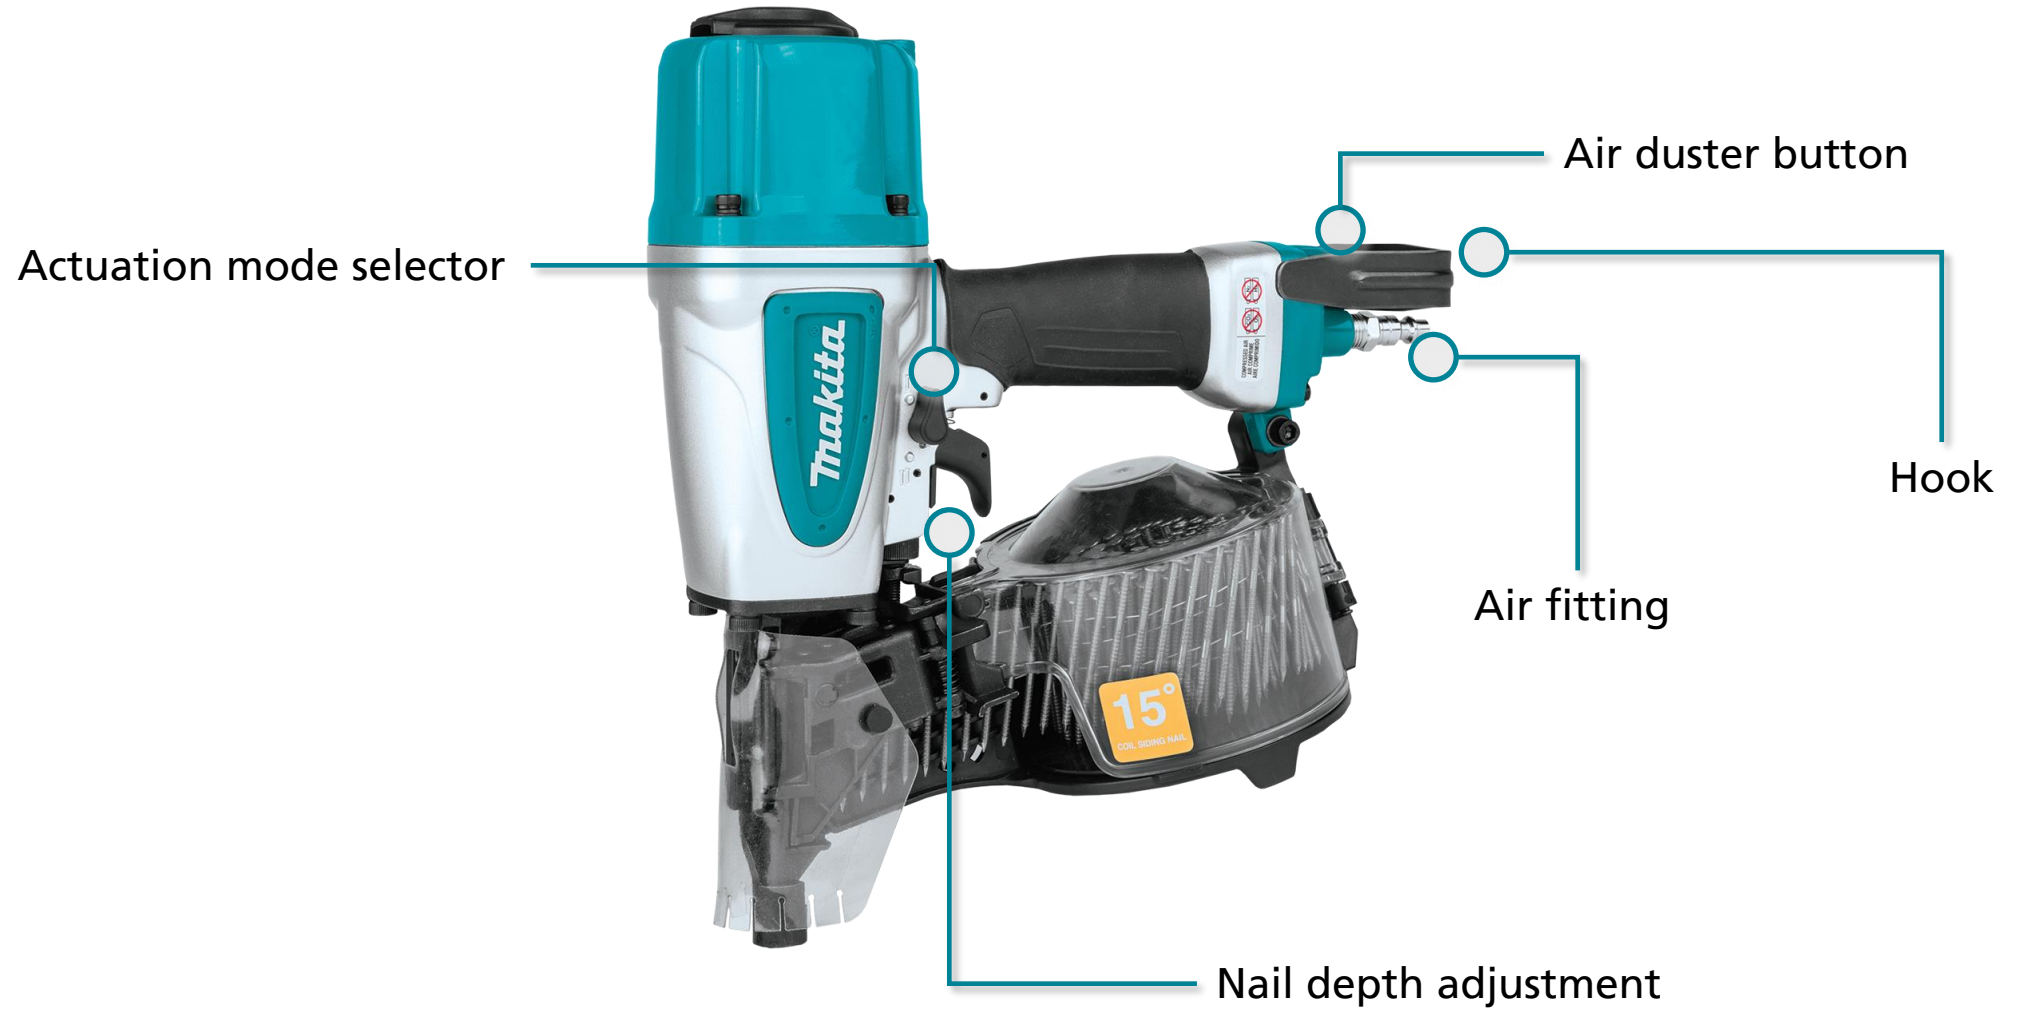

Product Objectives

- Designed to perform tasks such as framing, fencing, interior & exterior nailing
- AN613 replaces AN611

Product Overview

Product Specification Sheet

Fastener range	Plastic: 32 - 65mm / Wire: 38 - 65mm
Operating air pressure	70 - 120PSI
Magazine capacity	200 - 300pcs
Fastener type	15°, 2.3 - 2.5mm diameter
Overall length	319mm
Net weight	2.2kg

- **Actuation Mode Selector** – select operation mode: single sequential actuation mode (single fire) or contact actuation mode (bump fire).
- **Nail depth adjustment** – to adjust the depth of nailing, turn the adjuster. The guide on the tool shows which direction for deep or shallow depth. If nails are still not driven deep enough after adjustment, increase the air pressure. If nails are too deep after adjustment, decrease the air pressure.
- **Air duster** – helps clean dust and debris off material. Press the button on the grip end to engage.
- **Hook** – convenient for hanging the tool temporarily. To change the hook position, remove the hex socket bolt and switch hook direction.
- **Easy to-grip handle** – Anti-slip ribs added to the grip rubber provides more control.
- **Nose adapter** – use the adapter to prevent the surface of the workpiece from being scratched or damaged.

Advantages

Power

70-120 PSI operating air pressure

Convenience

Air duster to blow away dust and debris

Precision

Easy to use depth adjustment

Control

2 mode selection switch:
single fire or bump fire
