- **Belt Clip** – provides convenient hanging via a tool belt

Key Features

Makita

Ergonomics

Only 28mm distance between nail exit and tool body

Precision

Driving depth adjustment, easily changed by a switch

Innovation

Easy to see slim nose tip.
Quick and easy access to fastening point

Versatility

Rocker switch to select sequential mode or bump fire mode

Longer run time then competitors

Enables up to 2000 shots on a single battery charge (BL1850)

	Makita - DBN500
Shot Quantity on a single charge	2000

Minimal distance between nose tip and tool body

This enables the user to view around the nose tip and fasten narrow spots.

Only 28mm distance
between nail exit and
tangential line of front
body.

Rocker switch

Easy selection of Sequential mode / Bump fire mode

Sequential - Nails can be shot continuously

Bump Fire - One nail can be shot at a time

Compatibility

Compatible with Li-Ion batteries from 1.5Ah up to 5.0Ah with *fast charging and longer run times *DC18RC/DC18RD

Fast Charging

Advantages

Makita

18V + 18V = 36V
 Powered by two 18V Li-ion batteries in series

WORLD'S LARGEST 18V LITHIUM-ION LINE UP

Fast Charging

Battery Capacity	Charging Time
5.0Ah BL1850	45 min
4.0Ah BL1840	36 min
3.0Ah BL1830	22 min
1.5Ah BL1815N	15 min

Charger DCT18RC
