

Makita

18V Brushless 2.0mm Straight Metal Shear

DJS200

BRUSHLESS

Product Objectives

- To develop a cordless Straight Metal Shear powered by a Brushless Motor, expanding the options available on the 18V LXT battery platform.
- Designed to suit the needs of metal manufacturers, fabricators and many other trades who require a powerful cordless straight metal shear.

Product Overview

Straight Shear Head

Lock on button

360° Rotatable cutting head

Ergonomic Design

LED Job light

eXtreme Protection Technology

Product Specification Sheet

Max. cutting capacities in mild steel	2.0mm
Max. cutting capacities in stainless steel	1.6mm
No load speed	0 - 3,000spm
Overall length	345mm
Skin weight	1.9kg
Weight (with battery)	2.5kg
Voltage	18V

- **Straight shear head** – the straight shear head allows for the tool to make straight metal cuts with ease, with a cutting capacity of 2.0mm in mild steel, and 1.6mm in stainless steel
- **360° Rotatable cutting head** – Cutting head is 360° rotatable with 12 stops for comfortable use in different applications
- **LED job light** – for improved visibility in low light environments with an afterglow function for increased convenience
- **Lock on button** – features lock on button, reducing hand fatigue and allowing for comfortable operation for the user when cutting and operating for extended durations of time
- **Ergonomic Design** – the tool has been designed to be ergonomic with a rubberized soft grip, improving grip and comfort during operation for the user
- **eXtreme Protection Technology** – provides enhanced protection against dust and moisture, ensuring the longevity of the tool

Advantages

Power

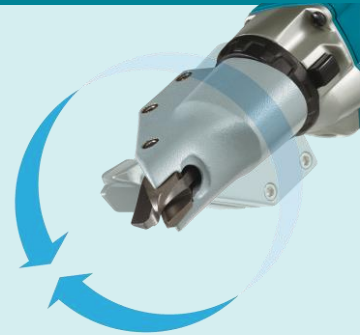

Brushless Motor providing a 3,000spm
no load speed

Performance

Cutting capacities of 2.0mm in mild steel and
1.6mm in stainless steel

Convenience

Cutting head is 360° rotatable with 12 stops
for comfortable use

Durability

XPT provides advanced protection against dust
and moisture

Optimised Cutting Performance

The DJS200 is designed with an efficient Makita Brushless Motor, providing a 3,000spm no load speed, producing a maximum cutting capacity of 2.0mm in mild steel, and 1.6mm in stainless steel.

The DJS200 features an straight shear head specially designed and optimised for straight metal cuts, which is also 360° rotatable with 12 stops for working at different angles for increased convenience to the user.

Cut Capacity

2.0mm

- Mild Steel

Cut Capacity

1.6mm

- Stainless Steel

Accessories

Standard Accessories

	346317-0	Belt Clip
	783215-1	Hex. Wrench
