# Product Overview

# Product Specification Sheet

- **Hand Guard** – protects the users hands in the event of the chainsaw kicking back
- **Ergonomic Top Handle Design** – designed closer to the chain, allowing the user to apply greater force whilst still keeping the overall design compact, ideal for pruning trees.
- **Climbing Ring** – allows the chainsaw to be hung for users working in trees where both hands are required to climb
- **Automatic Chain Oiling** – chain lubrication is automatically distributed to the chainsaw throughout working, allowing the user to work with minimal hold ups
- **Tip Guard** – helps prevent kickback by covering the tip of the blade and preventing it being used
- **Tool-less Chain Adjustment** – user can quickly and easily change the tension of the chainsaw chain without having to remove the sprocket cover
- **Oil Capacity Window** – large window clearly shows the amount of oil in the reservoir to ensure the saw never runs dry
