- **Intelligent ignition coil** – controls stable idling and increases output power at practical RPM range
- **Fleece air filter** – high resistance to dust ingress
- **Easy start** – the pull force required to start the machine is drastically reduced with spring assisted recoil starter
- **Primer pump** – assists in easy start when starting the motor cold
- **Environmentally friendly** – catalytic converter significantly reduces the exhaust emissions ejected from the saw
- **Tool-less tension adjustment** – unique design allows saw chain tension to be adjusted without the need for any tools
- **Adjustable oil pump** – the amount of chain oil can simply be adjusted allowing the user to make adjustments based on whether they are cutting hard or soft wood

Advantages

Performance

High power 1.7kW 2-Stroke engine with catalytic converter

Innovation

Tool-less chain tension adjustment

Control

Adjustable oil pump – amount of chain oil can be adjusted

Efficiency

Easy start with spring assisted recoil starter
