

**40V Max 300mm  
Top Handle Chainsaw  
UC003G**

**HEAVY DUTY BRUSHLESS**

# Product Statement

UC003G is a lightweight, compact top handle chainsaw which provides fast cutting with chain speeds up to 24m/s and a max output wattage of 1.4kW.

The narrow 1.1mm chain creates less friction while cutting allowing for faster cutting & increased runtime compared to thicker gauge chains designed for petrol chainsaws.

UC003G is ideal for climbing, coming standard with a captive bar nut on the blade cover to eliminate the risk of losing small components while adjusting chain tension at heights. It also has a lanyard hook to clip it to the operator's harness so it remains secure while moving from cut to cut.

# Product Overview

Variable speed trigger

40V Max XGT delivers  
1.4kW Max output

Lanyard hook

Adjustable chain oiling

Metal spike bumper

Captive bar nut

# Product Specifications

SPECIFICATIONS	
Max Output Wattage	1.4kW
Chain Speed	24m/s
Bar Length	300mm
Standard Chain	3/8" / 0.043"
Oil Capacity	200mL
Skin Weight Excl. Bar/Chain	2.6kg
Voltage	40V Max

- **High Power** – 1.4kW Max output wattage comparable power to 30cc 2 Stroke chainsaws.
- **Ergonomic Handle** – Ergonomically designed top handle with rubberized soft grip providing the user with greater comfort.
- **Lanyard Hook** – Provides a secure point for tree climbers to attach the saw for convenient use and storage.
- **Variable Speed Trigger** – User can control the speed of the chain by applying soft pressure to the trigger for smaller cuts.
- **Adjustable Chain Oiling** – Allows the user to increase or reduce the amount of oil provided to the bar to ensure optimal lubrication for the application.
- **Metal Spike Bumper** – Aggressive teeth provide a pivot point to work the bar through the material while providing increased grip & stability.
- **Captive Bar Nut** – Anti fall captive bar nut allows for maintenance at heights without the risk of losing small components.
- **Water Resistant** – IPX4 water penetration rating for use in wet weather situations.

# Advantages

## Power

1.4kW Max output power equivalent to 30cc 2 stroke chainsaws

## Versatility

Adjustable chain oil flow rate to suit different timber types

## Durability

IPX4 water penetration rating for use in all weather situations

## Ergonomics

Metal spike bumper grips into workpiece for added support and control

Standard Accessories		
	Guide Bar 300mm	191G15-1
	Chain Bar Cover	419288-5
	Chain	191H01-8
	Wrench 13mm / 16mm	782023-7
	Bar & Chain Oil Vessel	-
