

12V MAX Mobile LED Flashlight

ML103

- Develop a mobile lighting option for the 12V MAX range that is bright, lightweight and fits in the palm of your hand
- Designed to suit the needs of tradespeople that require a compact lighting option for working in tight spaces such as switchboards and roof spaces

Product Overview

Makita

CXT

Bright illumination

Lightweight

Long run time

Ergonomic design

- **Bright illuminance** – this model has been designed to illuminate in a wide area, therefore diffusing the light has been adopted
- **Long run time** – with continuous run time of between 11 and 28 hours the ML103 can easily be used all day
- **Ergonomic design** – comfortably fits into the palm of the users hand or sits flat on a bench top for easy use
- **Lightweight** – extremely lightweight design at less than 300g when using 2.0Ah battery
- **CXT Compact eXtreme Technology** – the CXT range features the newly developed 12V MAX slide type li-ion battery. Providing more stable contact between battery and tool
